In this book I am going to show you how to grow your account ,and how to use lot sizes , in forex market we don't have to do get rich quick , or else you are going to blow your account with high lot size on a small account , Lets take a look.....pip measures

A pip measures the amount of change in the exchange rate for a currency pair.

LOTT SIZE
Micro 0.01
Mini 0.10
Standard 1.00

Scenario: Trading four days a week per month. Aiming for 25 pips per day which is a total of 400 pips a month using risk management

This table is showing you how u going to increase your lot size. we increase a lot size according to your Account, if you follow the table u will make \$100 to \$28 000 in a year which is R373 105,60 in South Africa. And that is lot of money, take your calculator ready.....EXAMPLE (account \$100 ,25 pips four days a week, which is 100 pips a week and 400 a month using lot size 0.05) $0.50 \times 400 = \$200$

MONTH/Per Trade	BALANCE	Daily pips	Total Monthly pip	LOT SIZE
1	\$100	25	400	0.05
2	\$300	25	400	0.10
